

Customer Journey Map: EV Charge and Range Analysis Tool

Customer / User Story & Scenario

Persona: Alex, a new long-distance EV owner.
Scenario: Planning and analyzing long trips using a new charging optimization and range visualization software dashboard.

Scope: High-level overview of the entire journey from software discovery to post-trip range analysis.

Journey Phases	 Discover Learning about the software.	 Onboard Setting up vehicles and account.	 Plan Trip Simulating long-distance travel.	 Analyze Trip Evaluating trip efficiency and metrics.	 Share/Export Sharing insights and downloading data.
Experience Steps	- Learning about dashboard - User software	- Select car destination - Compare a vehicles and remudatu	- Select destination - Choose charging stops - Compare routes	- Select destination - Choose charging stops - Compare routes and metrics	Sharing insights and downloading data.
Interactions	- Select car model (e.g., Tesla Model 3) - Input weather data (e.g., cloned to dashboard) - Set SOC (State of Charge) targets	- Select car model (e.g., Tesla Model 3) - Input weather data - Set SOC (State of Charge) targets	- Select car model (e.g., Tesla Model 3) - Input weather data - Set SOC (State of Charge) targets	- Select car model data, targets - Input weather data - Set up vamote snmmer charging targets - Set SOC (State of Choost of Charge) targets	- Sharing insights and downloading data. - Read downloading data.
Goals & Motivations	- Maximize range confidence - Reduce charging downtime	- Maximize range confidence - Reduce charging downtime	- Maximize range confidence - Reduce charging downtime	- Maximize range confidence - Reduce charging downtime	- Maximize range confidence - Reduce charging downtime
Positive Moments	- Finding an unexpected fast charger - Optimized route saves 30 minutes	- Optimized route saves 30 minutes - Optimized route saves 30 minutes	- Optimized route saves 30 minutes - Optimized route saves 30 minutes	- Finding an unexpected fast charger - Optimized route saves 30 minutes	- Sharing insights and downloading data. - Sharing insights and downloading data.
Negative Moments	- Confusing energy consumption graphs - Data sync error	- Confusing energy consumption graphs - Data sync error	- Confusing energy consumption graphs - Data sync error	- Confusing energy consumption - Data sync error	- Data sync error - Data sync error
Opportunities	Simplify vehicle setup	- Simplify vehicle setup - Add charging network reviews	- Simplify vehicle setup - Add charging network reviews - Improve battery health trends view	- Improve battery health trends view - Improve battery health improved health trends view	Improve battery health trends view confitication
