

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	05-07-2026
Team ID	
Project Name	Visualization Tool for Electric Vehicle Charge and Range Analysis
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

🕒 10 minutes to prepare
🕒 1 hour to collaborate
👤 2-8 people recommended

➔

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

A Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.

C Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

PROBLEM

How might we [your problem statement]?

Key rules of brainstorming

To run a smooth and productive session

- Stay in topic.
- Defer judgment.
- Go for volume.
- Encourage wild ideas.
- Listen to others.
- If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

Brainstorm

Write down any ideas that come to mind that address EV charge and range analysis.

🕒 10 minutes

1

Maneesha

Visualize real-time charging status and remaining range.

Analyze range based on driving patterns and conditions.

Show optimal charging stops along the route.

Compare range across different vehicle models.

2

SibgathullaKhan

Track battery health and its impact on range.

Visualize charging costs by location and time.

Heatmap of charging station availability.

Predict range using ML based on historical data.

3

Kesava

Route planning with range and elevation insights.

Show energy consumption breakdown (AC, speed, load).

Alerts for low range and charging needs.

Dashboard for multi-trip range and charge summary.

4

Akshaya

Weather impact on range visualization.

Compare fast charging vs. slow charging efficiency.

Visualize carbon savings with EV usage.

Personalized range tips and driving suggestions.

Group notes

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a descriptive label. Take 1-2 minutes to group similar sticky notes, try and see if you can break it up into smaller sub-groups.

🕒 20 minutes

Real-time Monitoring & Visualization

Visualize real-time charging status and remaining range.

Dashboard for multi-trip range and charge summary.

Track battery health and its impact on range.

Show energy consumption breakdown (AC, speed, load).

Range Analysis & Prediction

Analyze range based on driving patterns and conditions.

Predict range using ML based on historical data.

Weather impact on range visualization.

Alerts for low range and charging needs.

Route & Charging Optimization

Show optimal charging stops along the route.

Route planning with range and elevation insights.

Visualize charging costs by location and time.

Heatmap of charging station availability.

Comparison & Insights

Compare range across different vehicle models.

Compare fast charging vs. slow charging efficiency.

Visualize carbon savings with EV usage.

Personalized range tips and driving suggestions.

Step-3: Idea Prioritization

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes
